

CURRICULUM NUTANNAGAR GIRLS' H.S. SCHOOL

Over View: This is a common content that a School does usually have the written curriculum in an articulated and rigorous frame-work to ensure the comprehensive learning of each & every learners. As per SCERT Module of Tripura, we have designed the curriculum of our school paying an intense weight to the understanding of Language, Numerical, Environmental aspects, Science & Social Science. Apart from these core subjects, students are also provided the scopes to expose their inner skills attending soft skill enhancement programmes. Above all such programmes help them to remove the monotony of continuous study. CCE is followed in spirit & paper to assert subject wise and area wise weak & strong side of the students so that the remedial classes can be framed effectively. The curriculum of our School is being given hereunder in a form of table to reflect the whole therein

Grade	Area	Process	Objectives	Desired Out comes
